Services

We offer to transform your ideas into the realm of perfection.

Commercial

Boardroom and VIP Meeting Facilities

Your board meeting is where major decisions are made, so it's crucial to have a seamless communication system for all stakeholders, including remote attendees. At Megatech, we understand the importance of creating an immersive meeting experience, and that's why we were nominated for the best designed meeting room.

We offer premium audiovisual technology and integration services to our clients.

Command and Control Operations Centers

Implementing comprehensive centers for complex Networking/Security environments. Business organizations, public utilities, universities, and government agencies all require centers that can handle complex networking environments with high availability. Our team specializes in providing turnkey solutions for these locations, which includes a wide range of services such as large display walls, technical consoles and furniture, KVM and HDMI switching, UPS, video conferencing and more.

Auditoriums and Training Centers

When it comes to educating an audience, there are plenty of traditional and innovative methods to choose from. However, good display screen distribution, crisp audio quality, and incorporation of advanced Virtual Reality and Augmented Reality is the solution.

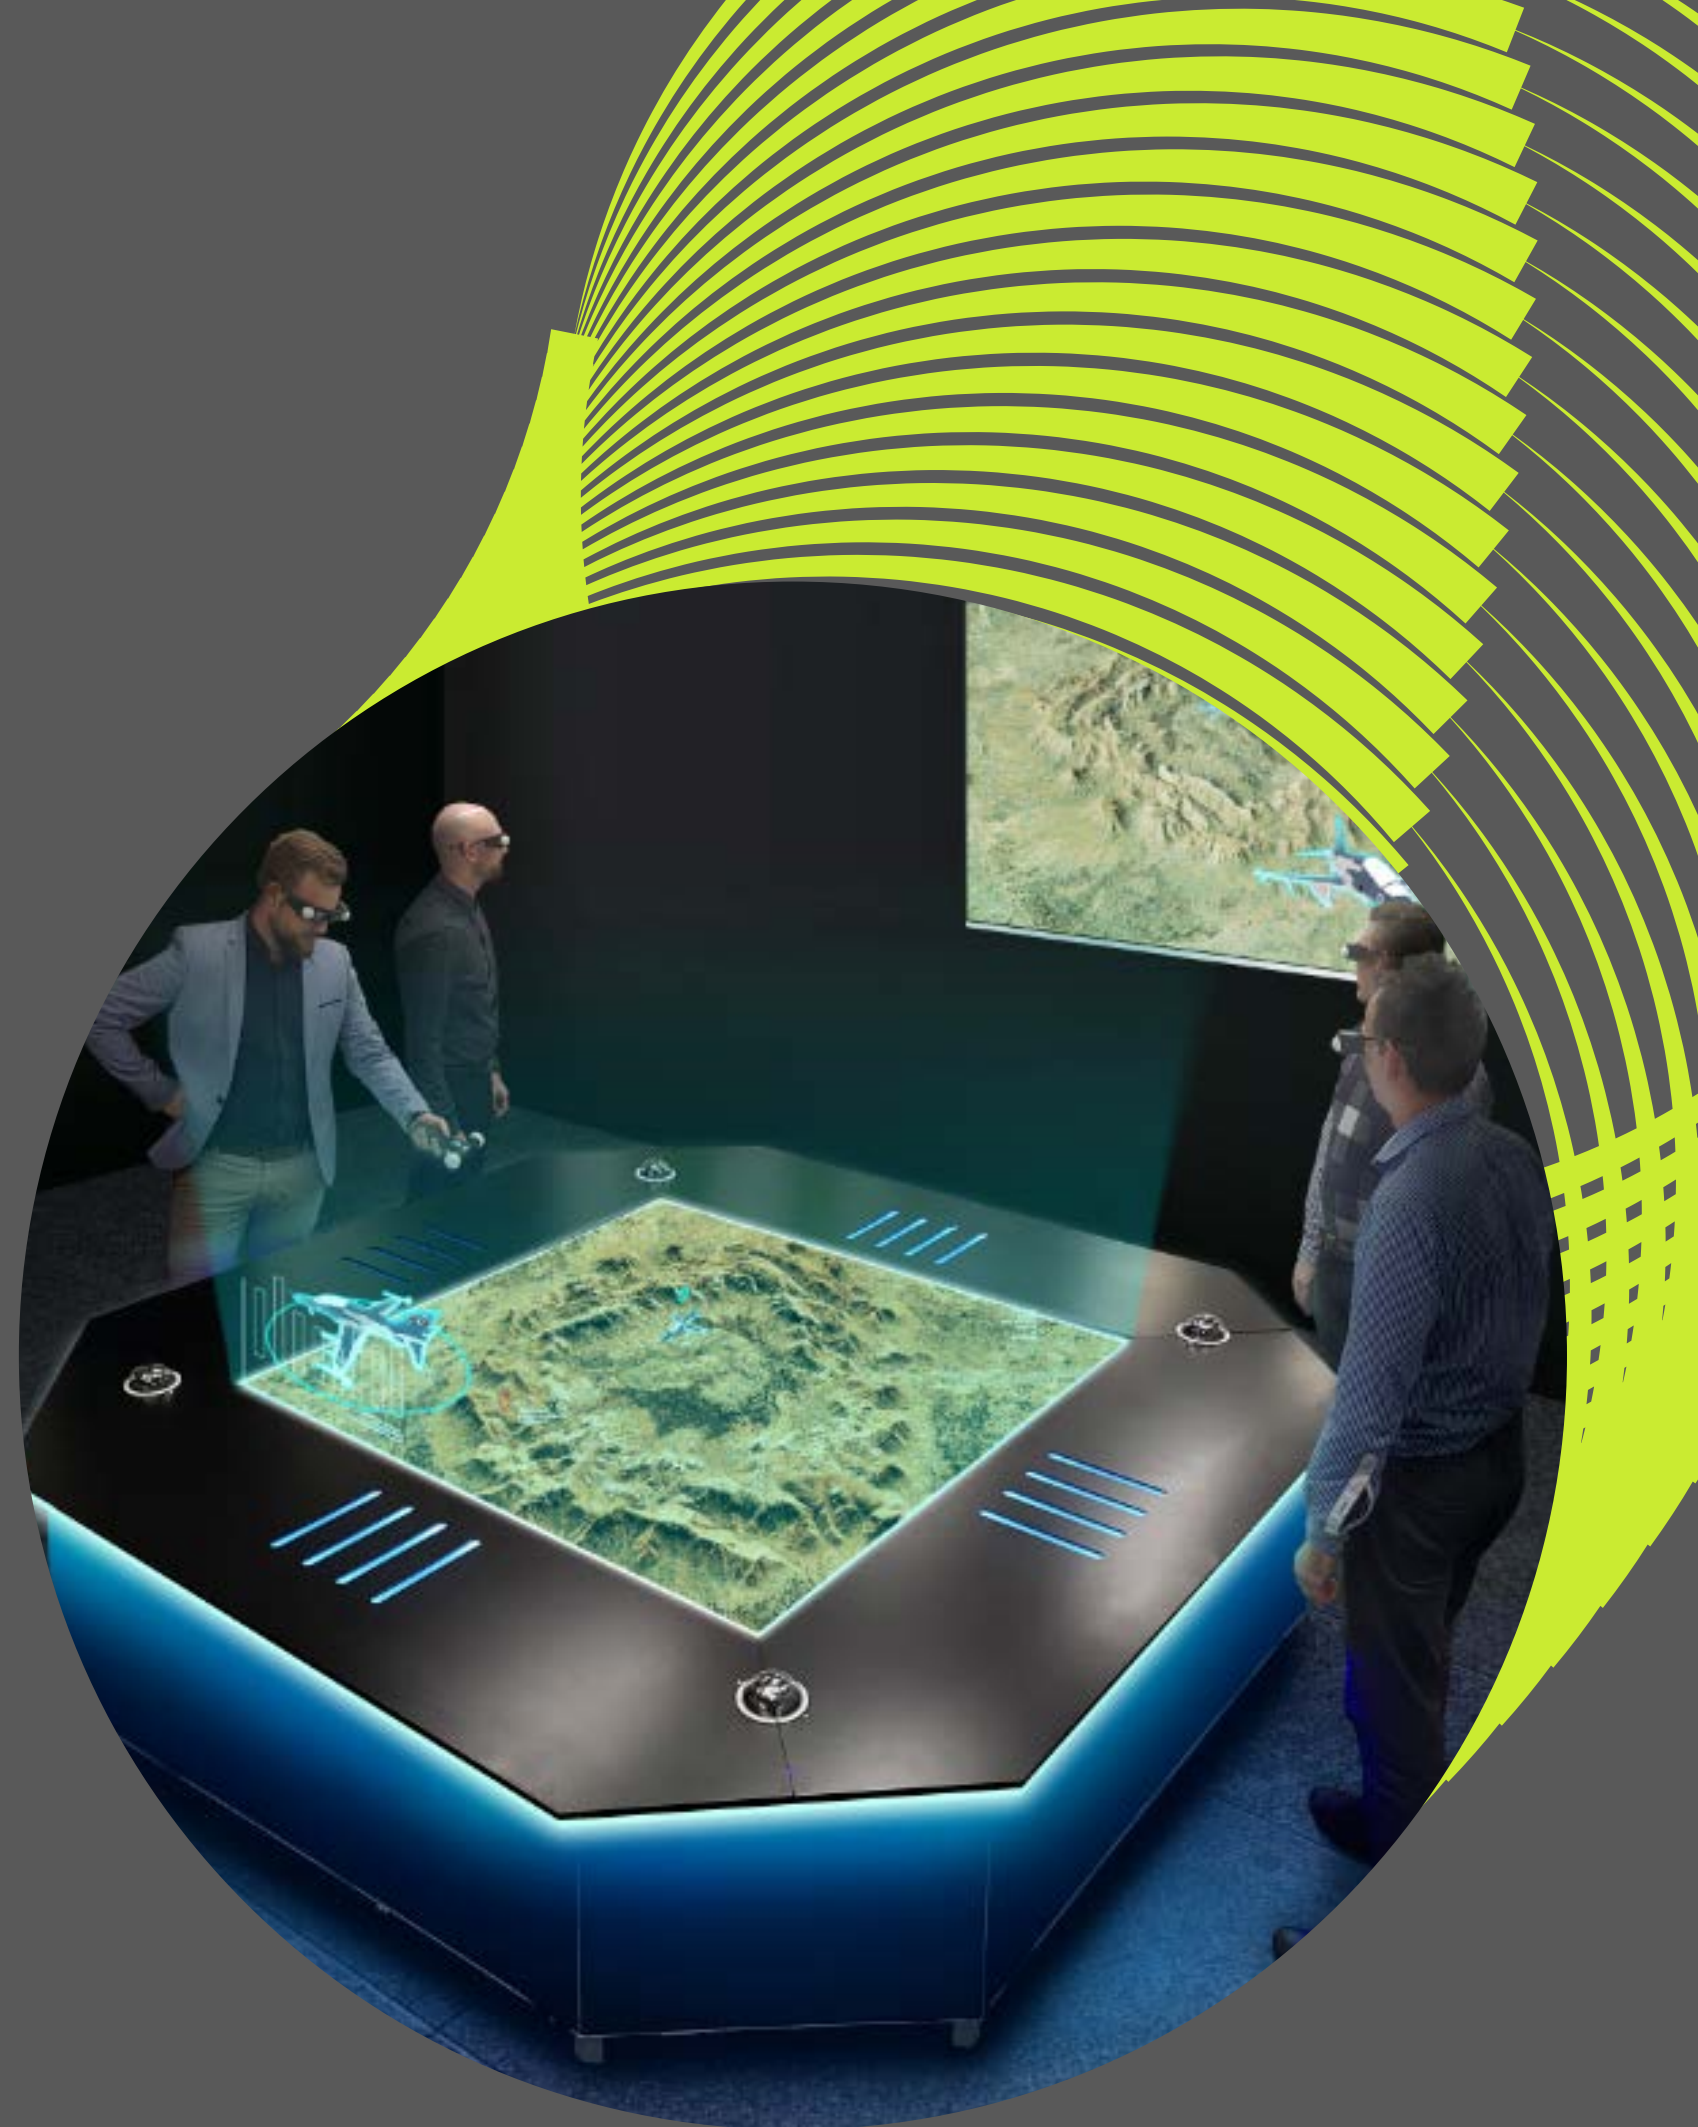

Designed to captivate attendees' attention, our solutions offer core features that enhance interaction and retention. With cutting-edge technology, our smart solutions foster better engagement and productivity in classrooms.

Museums

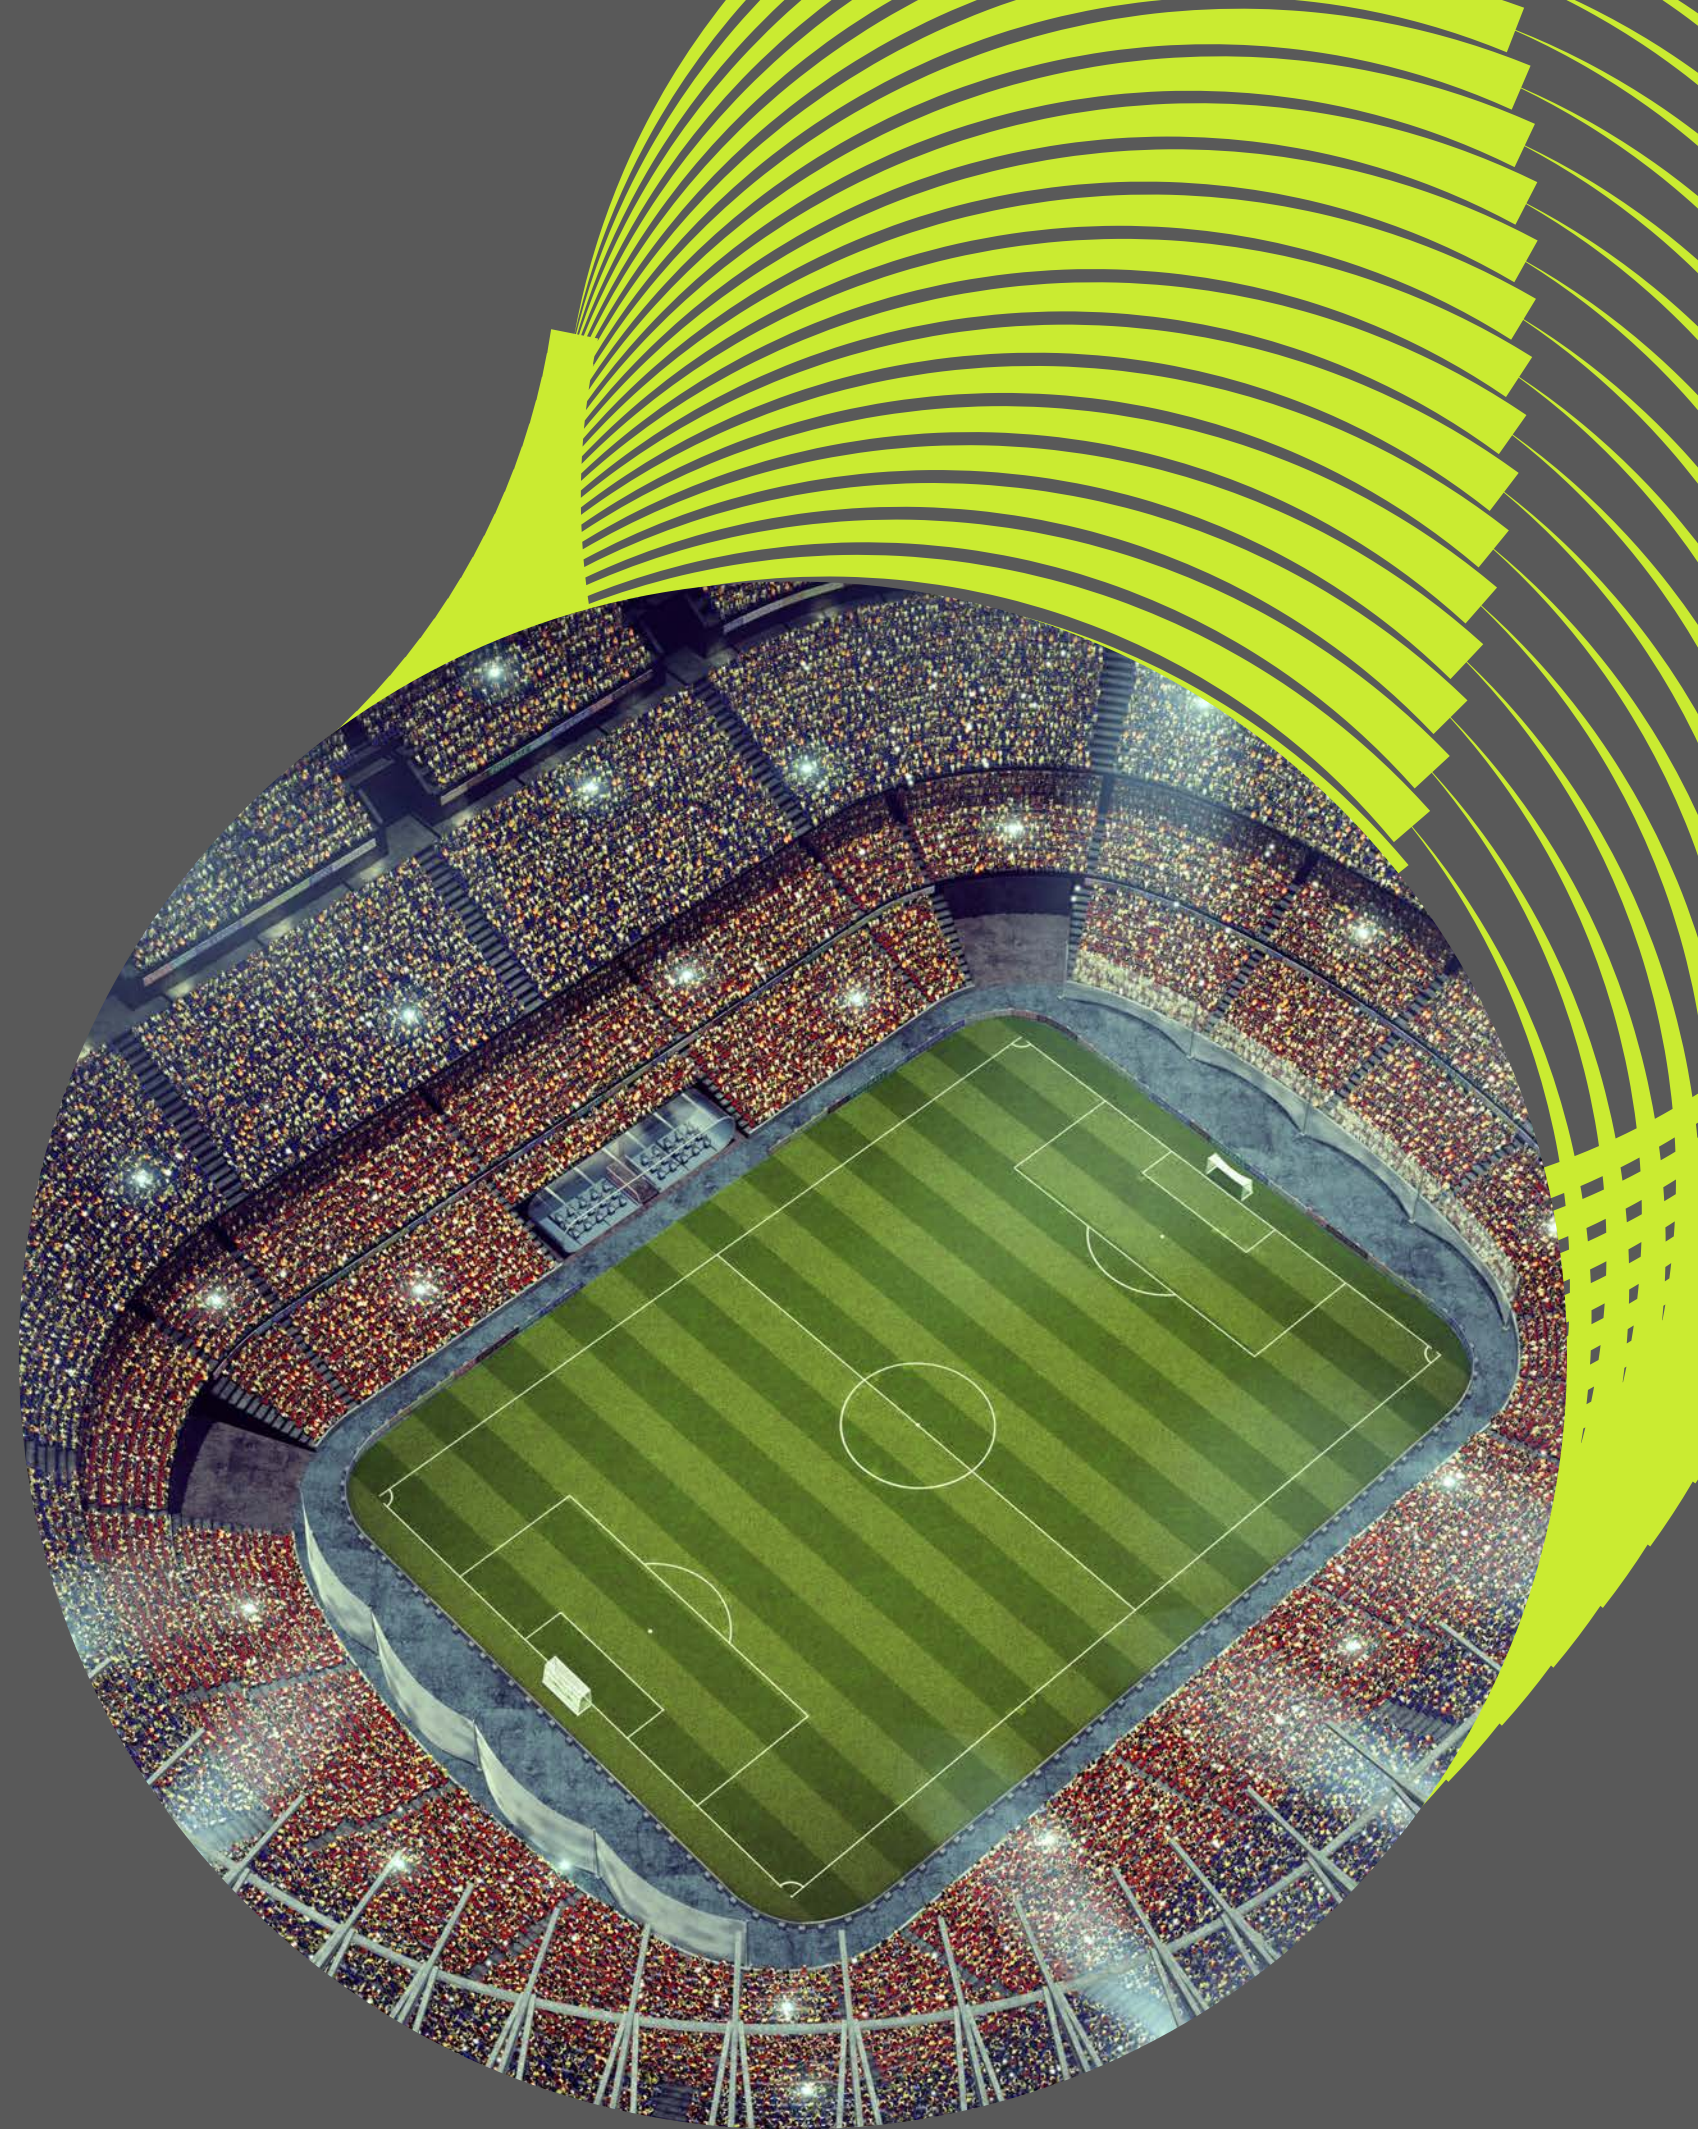

Transform your museum experience with our state-of-the-art technology solutions, including immersive displays, interactive exhibits, and user-friendly interfaces. Our innovative methods captivate visitors of all ages, turning your museum into a vibrant space where history and culture are brought to life.

From captivating holographic displays that make ancient artifacts come alive to user-friendly interfaces that encourage discovery and learning, every visit promises to be a memorable journey of wonder and exploration.

Stadiums

To enhance the overall experience for both athletes and spectators. Our cutting-edge technology provides crisp visuals and crystal-clear sound, creating an immersive atmosphere that brings the game to life. From thrilling replays to dynamic graphics, our display screens ensure every moment is captured and enjoyed to the fullest. Our audio systems deliver stadium-filling sound, amplifying the cheers of the crowd and the excitement of the game. With our expertise in installation and innovation, we transform stadiums into state-of-the-art venues where every game becomes an unforgettable experience.

Cinemas and Theatres

Our team specializes in creating fully integrated cinemas that meet the highest standards set by developers. We utilize the latest technology to offer motorized recessed screens, projectors, hidden speakers, and movie management/storage systems. With our range of products, everything can be controlled with ease. You can rely on our remote controls to do all the work for you, making it easy to use a cinema system, even if technology isn't your strong suit.

Metaverse and VR (Virtual Reality)

Our expertise lies in creating interactive metaverse experiences that transcend the boundaries of imagination and establish businesses in next-gen digital landscapes.

Our cutting-edge technology ensures seamless cross-reality connectivity and responsive interactions, delivering an engaging journey into the future of virtual realms.

Energy Saving Solutions and Lighting Control

A well-lit office is crucial in creating a healthy work environment. Connected lighting systems are becoming more popular as businesses search for ways to improve efficiency and productivity. At Megatech Arabia, we've designed lighting solutions specifically for workspaces that provide a comfortable experience for the eyes while promoting overall well-being. Our solutions create an inspiring and welcoming atmosphere for the entire day.

Digital Signage and IPTV

We are the first company in Saudi Arabia to install the first Cinema using Advanced Direct LED screens instead of Projectors. Whether it's within your waiting area, reception, or outside your building, an inadequate digital signage display system can potentially cause you to lose customers and referrals. With Megatech's cutting-edge digital signage systems, you can foster higher customer interaction, sales, and brand publicity. We help our customers maximize their digital signage advertising potential by fitting their space with top-of-the-line systems.

Meeting Room Reservation System

Double booking, scheduling errors, and empty slots can negatively impact your business and clients if you're unable to provide them with the attention they deserve. Fortunately, Megatech's meeting room reservation systems can help put these issues to rest. Our software ensures clarity, real-time updates, and a streamlined process that benefits both you and your potential clients across multiple interfaces.

Video Conferencing and Telepresence

By utilizing high-quality telepresence and audiovisual technologies, your business can save time, money, and infrastructure. At Megatech, we specialize in helping our clients expand their reach worldwide, from meeting high-profile prospects and investors to closing deals right from their own offices. Our state-of-the-art telepresence technology and installation services are tailored to meet each business's unique needs, ensuring the best quality, durability, and long-term growth.

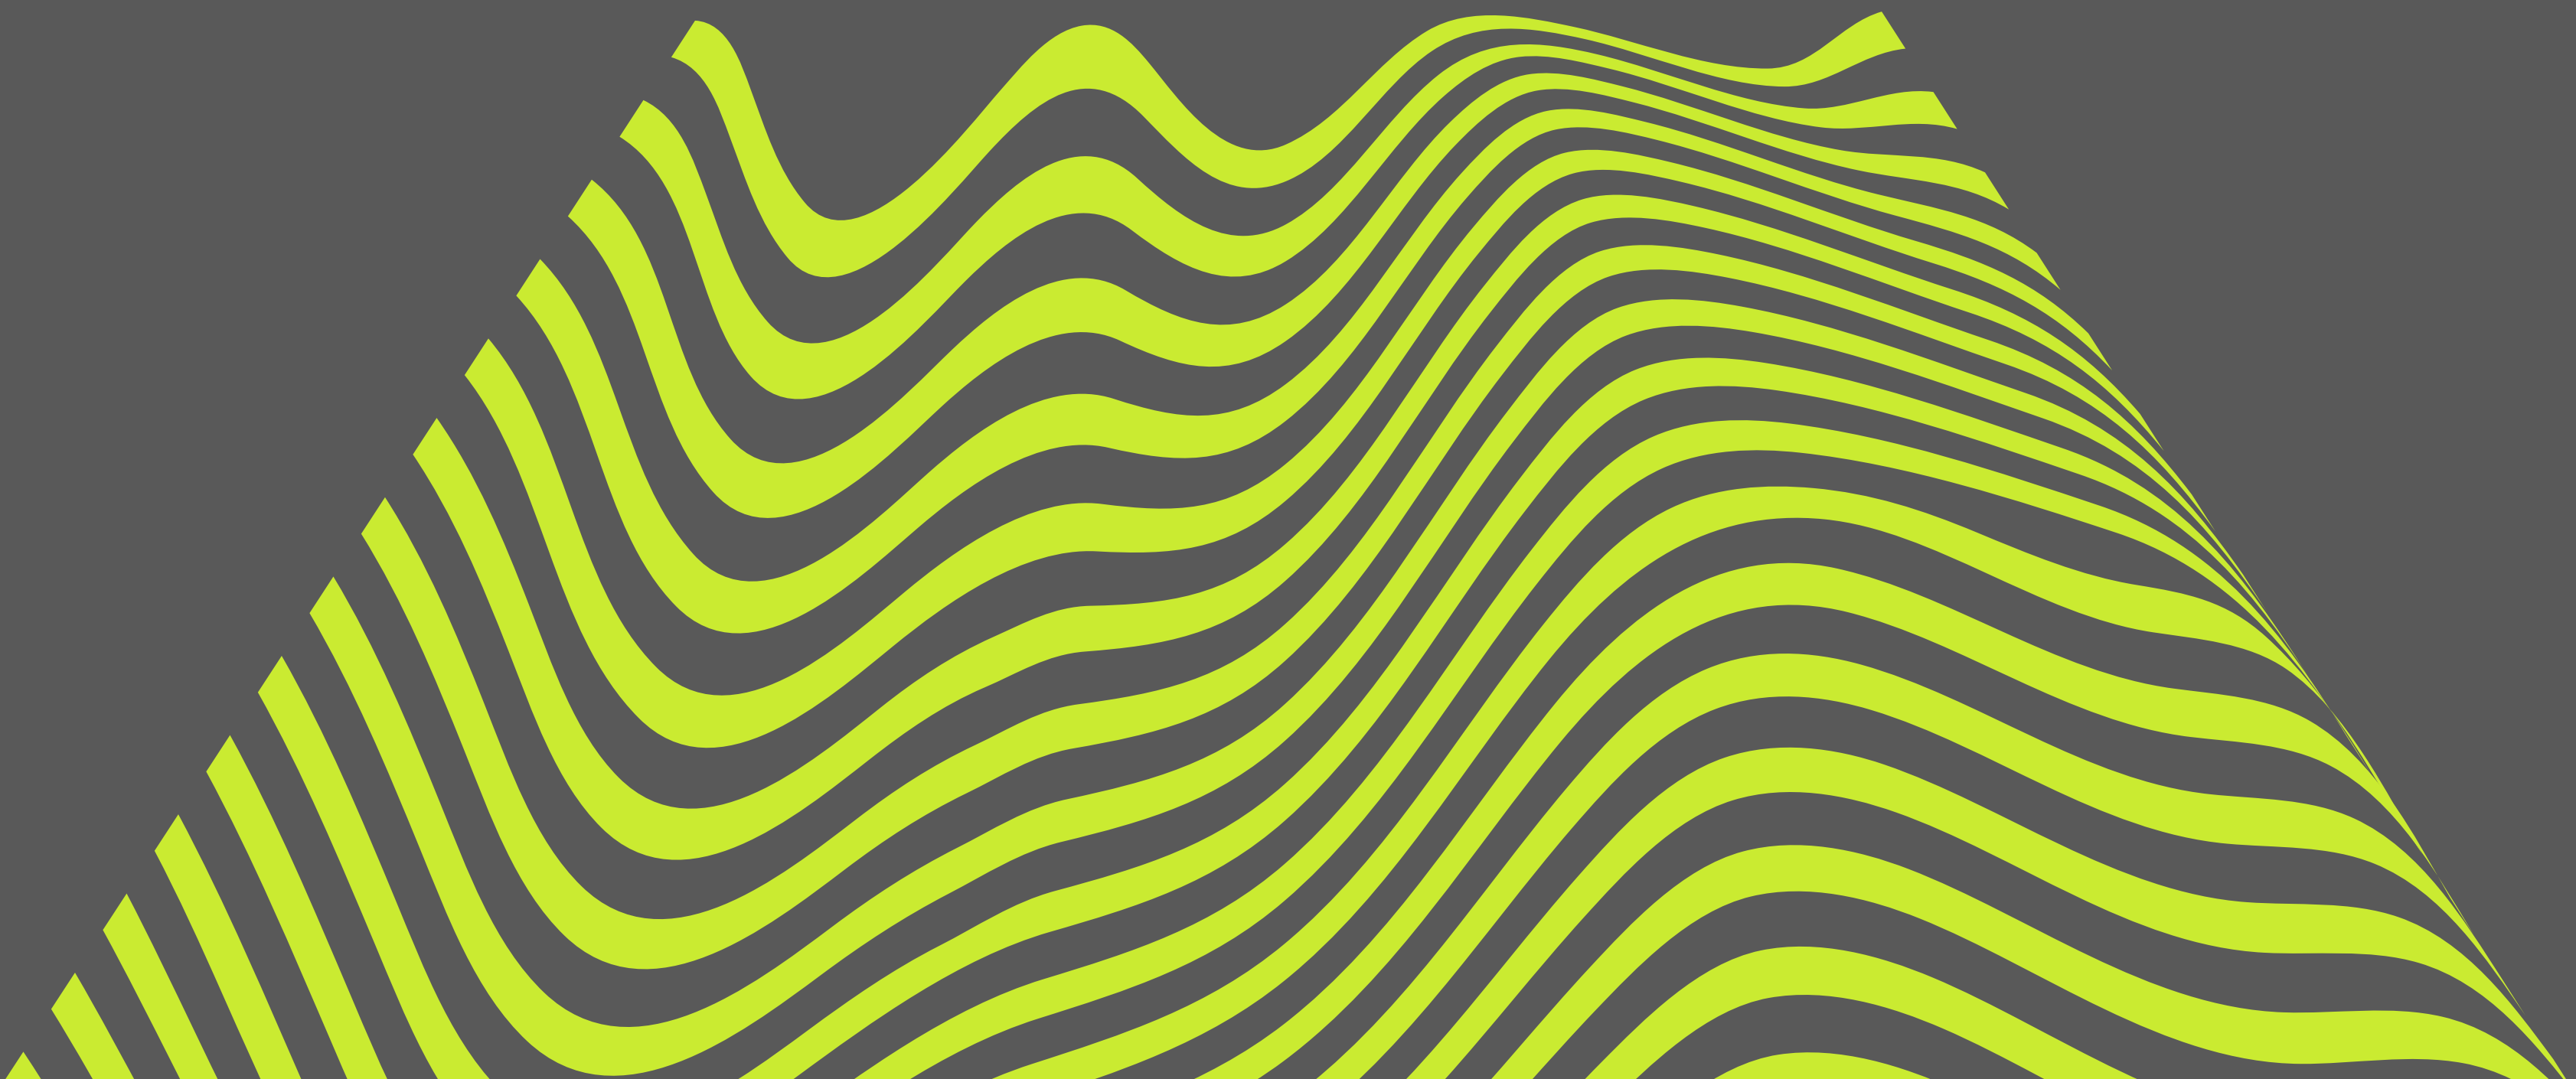

Parking Guidance System

In today's world, every little effort counts in boosting business, productivity, and brand perception. Our cutting-edge smart parking system is designed to help you save time for yourself, your customers, and employees in the parking lot. With our innovative smart systems, drivers can easily navigate to available parking spots and find the correct path to your facility.

Hospitality

Display Screens and IPTV Solutions

Organizations can now distribute digital TV and video content over building or campus IP networks (LANs) to an unlimited number of users, thanks to Video over IP. The centralized management, configuration, and control offered make it easy to manage. IPTV is compliant with industry standards and can be effortlessly integrated with other systems such as digital signage and hotel or hospital property management systems (PMS).

Guestroom Management Systems

Megatech offers guest room management systems that allow guests to control their room's television, audio, lighting, blinds, and heating systems. The system integrates with building management, electrical, and other subsystems, creating a unified and efficient operational system. It provides convenience to guests while saving energy and costs when rooms are unoccupied.

IP Surveillance and Security Rooms

Thanks to digital HD CCTV cameras that are weatherproof, you can now monitor all areas of your space with ease. Our Digital Surveillance systems cater to a wide range of applications, offering robust outdoor cameras that can withstand harsh climates and discreet products for sensitive environments.

At Megatech Arabia, we recognize that every premise is unique and has its own specific requirements. Our customized solutions are tailored to meet your needs and ensure peace of mind.

Speed Gates and Gate Management Solutions

Megatech Arabia offers premium door control systems to improve accessibility for businesses, particularly hospitals, hotels, stadiums and offices. Our solutions from leading manufacturers have been tested and proven to deliver exceptional results. Contact us today to upgrade your facility's door automation system and provide convenience for your customers and employees.

IP Technology and IT Infrastructure

This technical infrastructure is designed to help IP institutions collaborate more effectively and deliver more efficient services to their users. Our technology powers nearly every aspect of today's businesses, from an individual employee's work to operations to goods and services. When properly networked, technology can be optimized to improve communication, create efficiencies and increase productivity.

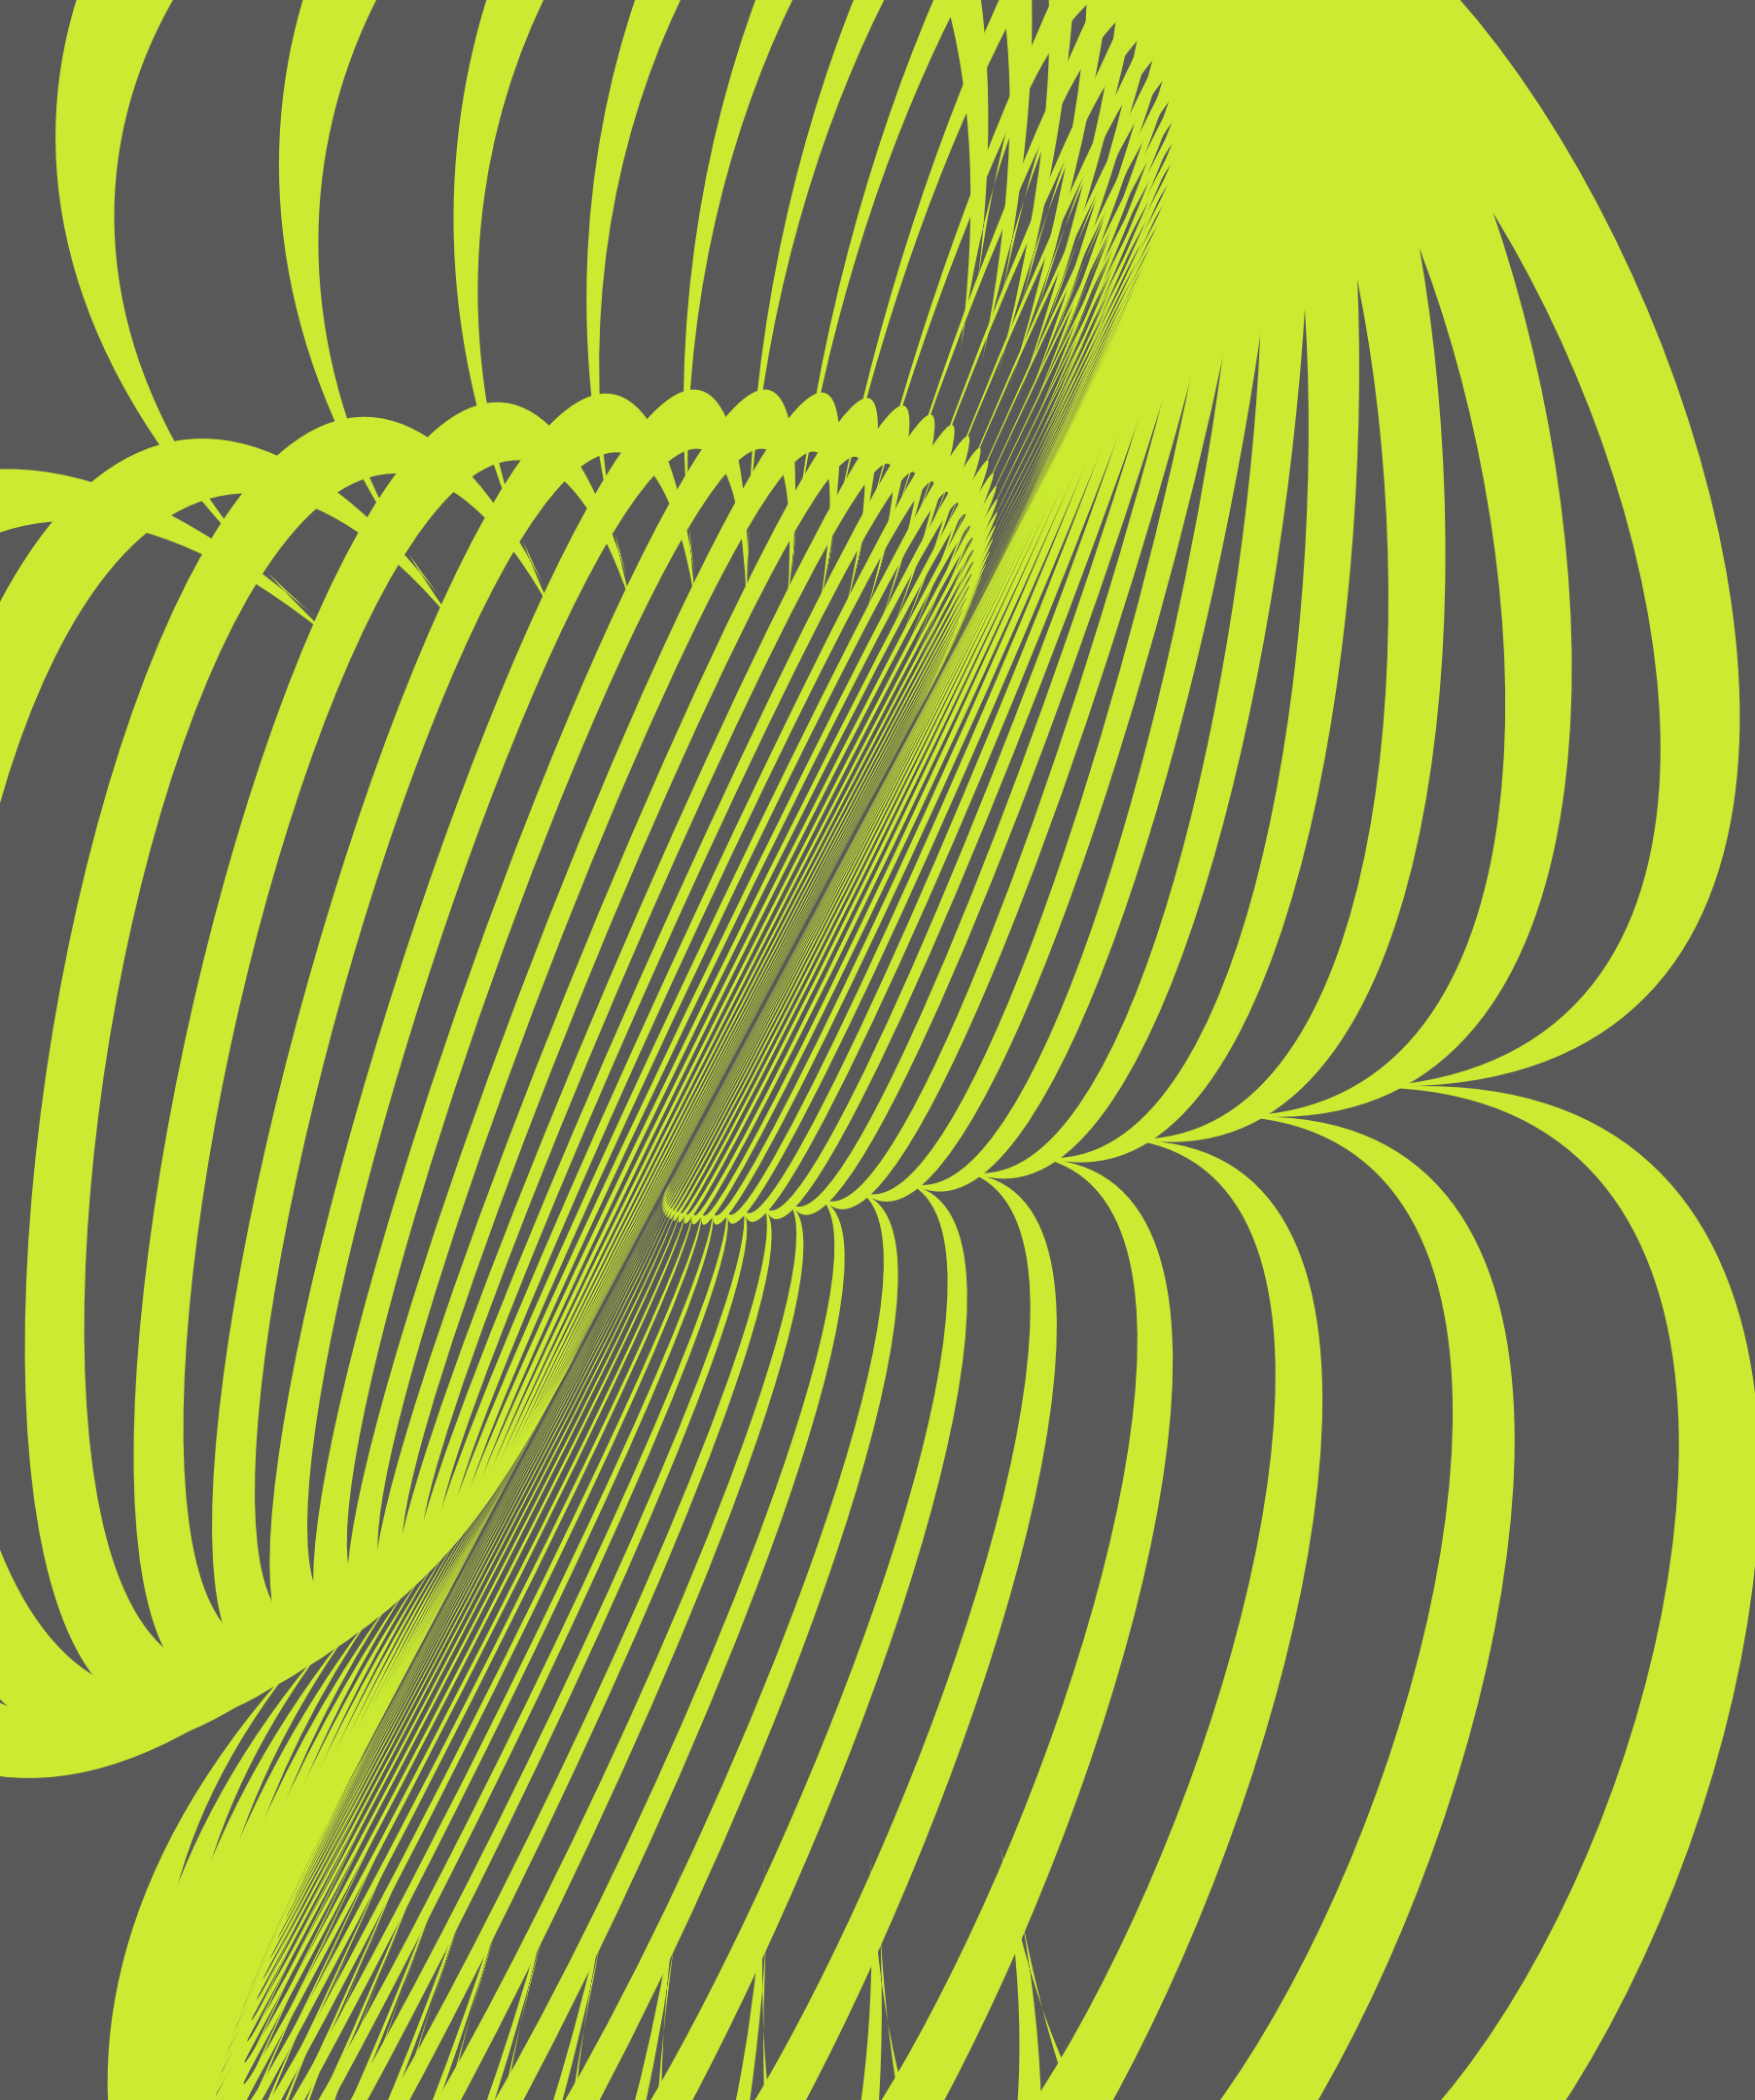

IP Clock System

Megatech Arabia specializes in providing a diverse selection of master clocks and synchronized clock systems. Our selection includes wireless clocks, IP clocks, and wired clocks, both analog and digital. Our products cater to a wide range of industries such as schools, hospitals, manufacturing plants, business complexes, transportation facilities, hotels, and more.

Our master clocks and synchronized clock systems are designed to accurately keep time and synchronize all clocks within a facility.

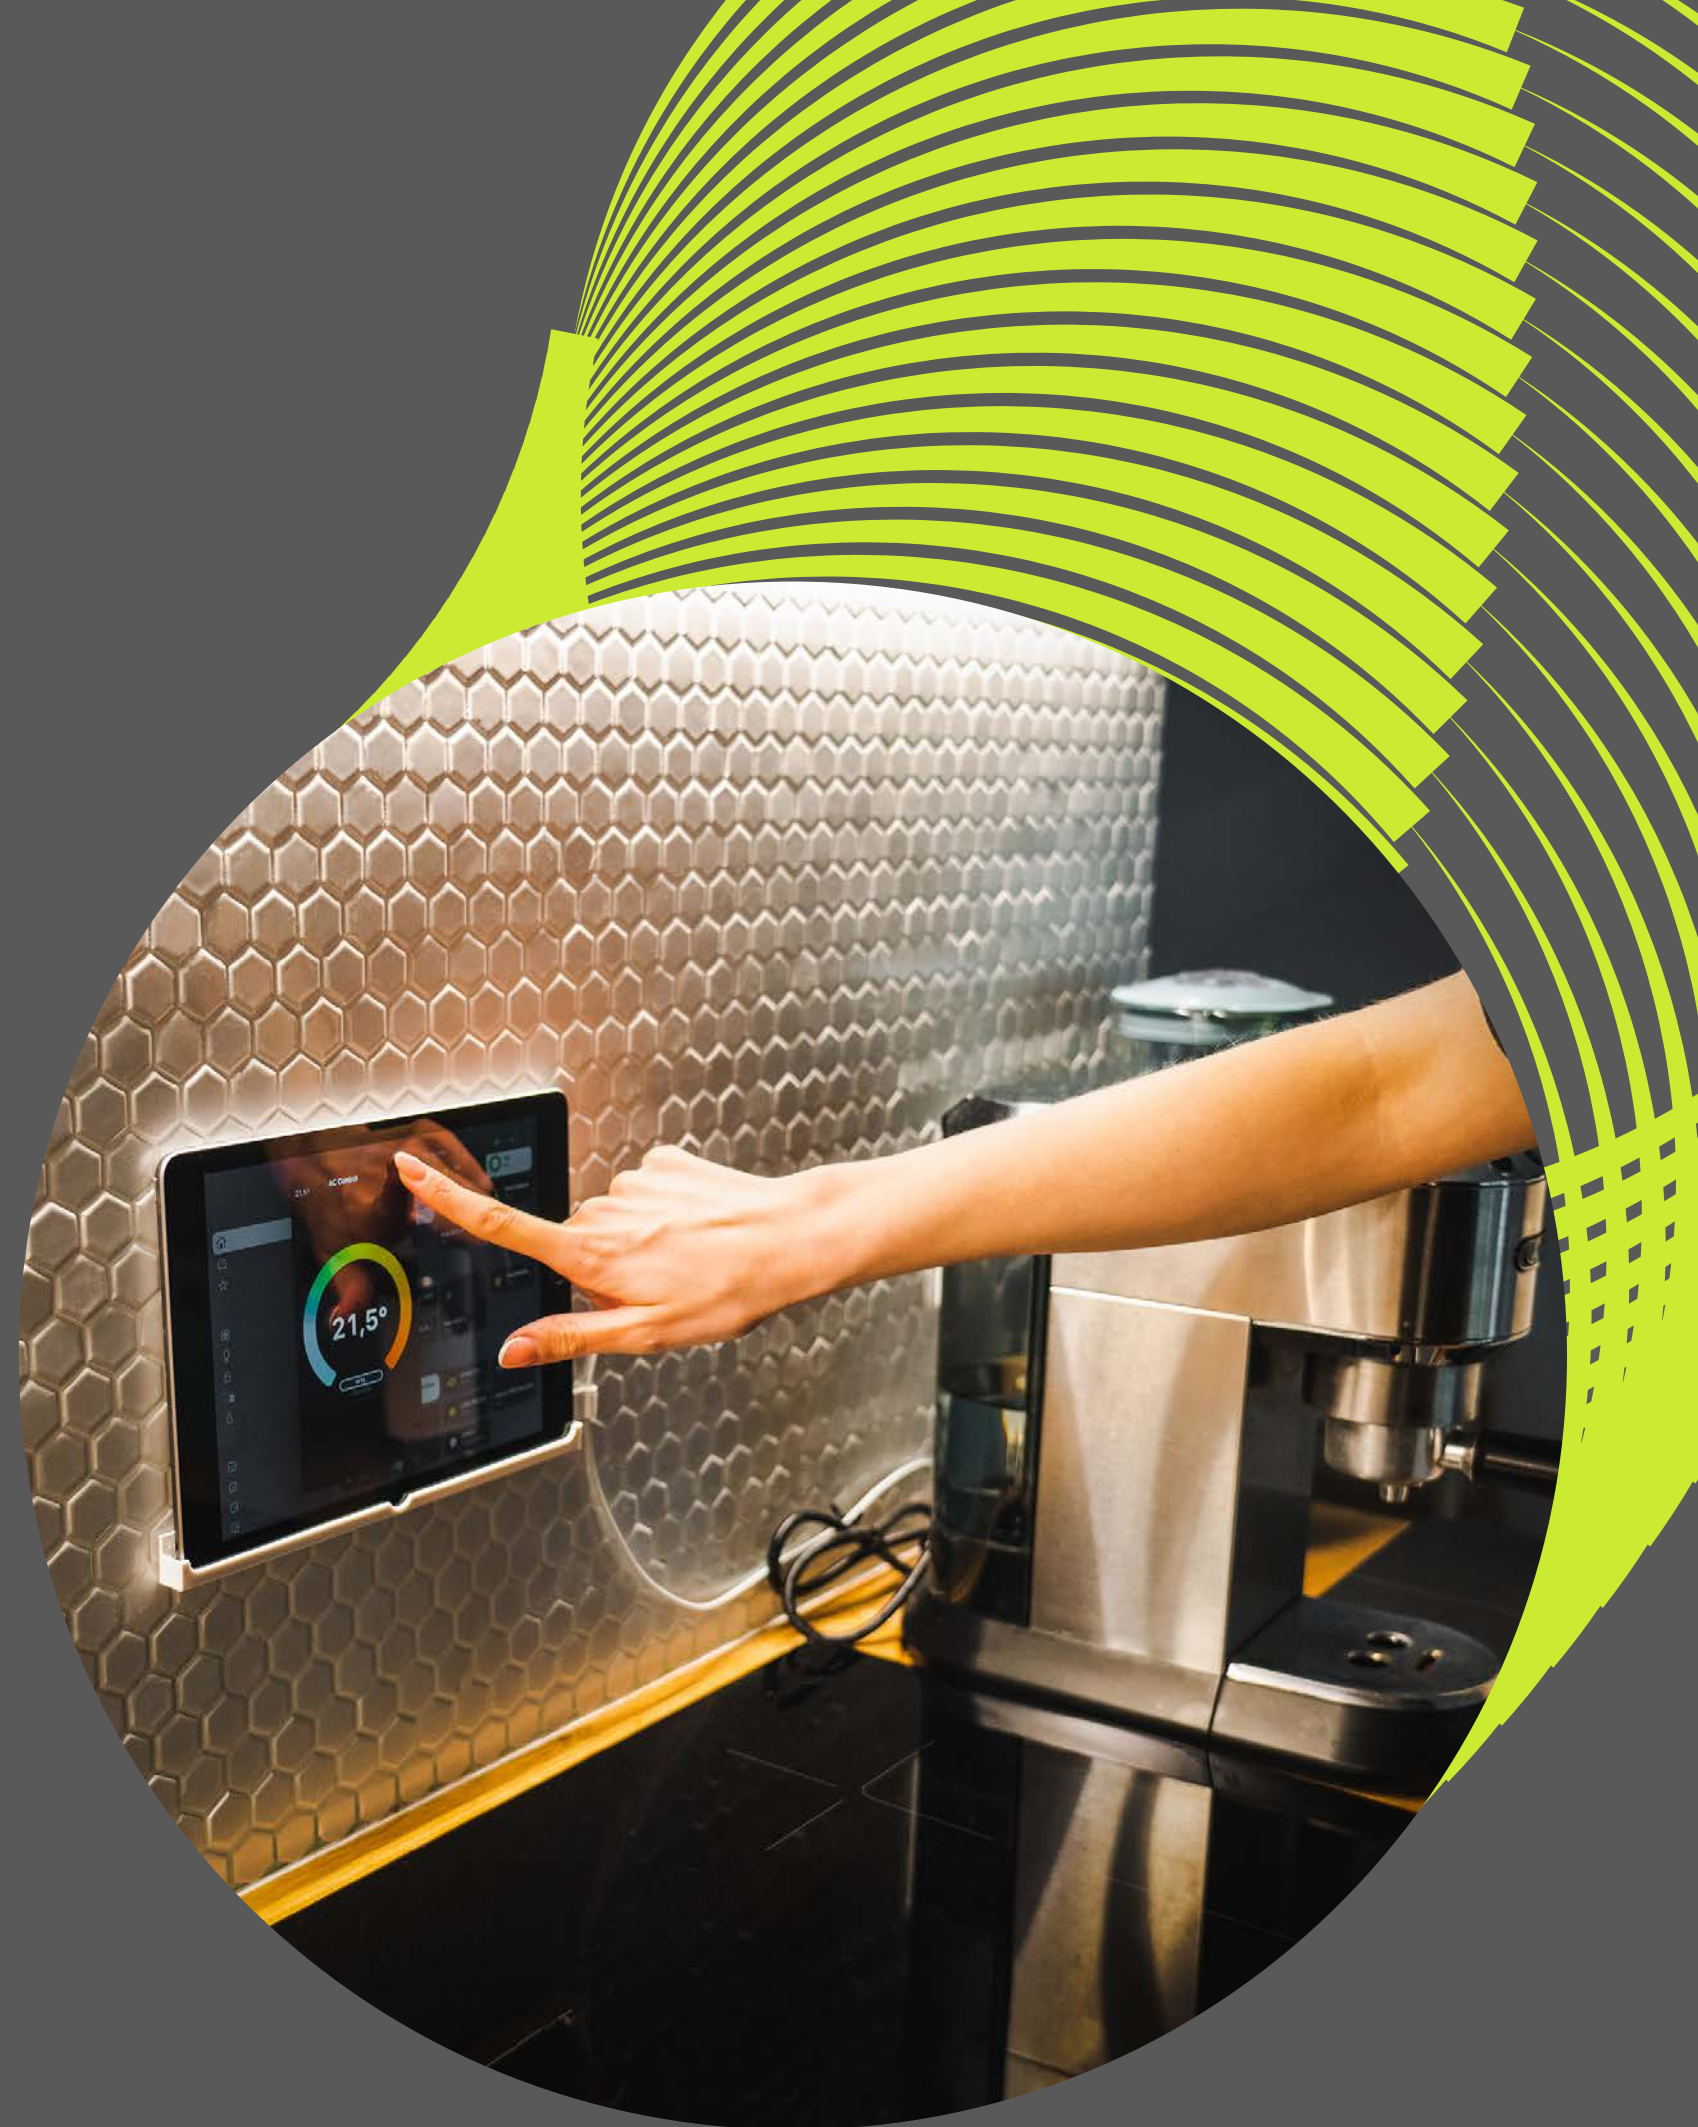

Residential

Smart Home Solutions

MegaTech Arabia offers Smart Home solutions that provide security, convenience, comfort, and entertainment. You can control various aspects of your home from a touchpad, tablet, or smartphone, regardless of your space and budget. We design and integrate Smart Home solutions for homes in any phase, be it planning, building, or already living in your home.

Security Systems

Megatech offers various alarm detection devices, monitoring services, and smart locks to ensure the safety and security of your home, your business or commercial centers. We also provide fire and carbon monoxide detectors to alert you in case of emergency. By investing in a combination of these devices, you can keep your space safe and secure. With Megatech, you can have peace of mind knowing that everything is both safe and efficient.

Video Servers and IPTV

At Megatech Arabia, we're committed to delivering exceptional, top-of-the-line installation services for video and IP. These video servers are designed to support Video Management Software. They include the computer, video cards, storage and VMS, everything you need to support your IP camera surveillance system.

We custom design the Video Server based on your needs. Hundreds of clients can view, control, store and retrieve video from all the IP cameras. It provides secure distributed and expandable storage for all network attached cameras.

Home Theatres

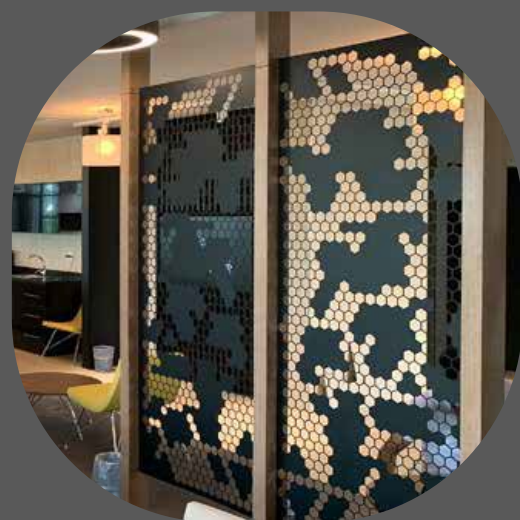

Do you dream of having a cinematic experience without leaving the comfort of your home? Look no further than Megatech Arabia. We specialize in optimal visual and audio placement, and lighting presets to create the ultimate immersive experience for your viewing pleasure. We'll work closely with you to reconfigure your desired room and ensure that you and your audience can enjoy the video content without any interruptions.

Professional Audio Systems

Your home should be more than just beautiful. It can be an immersive experience with the right audiovisual systems. Megatech has the perfect solution for single or multiple dwellings that will satisfy any craving. We have partnered with the world's leading audiovisual tech manufacturers and will collaborate closely with you to tailor a solution to your space and budget. Imagine every day as an entertainment paradise with Megatech.
